Hiring Manager
Innovaccer
Noida, India

Dear Hiring Manager,

I am writing to express my interest in the Product Analyst position at Innovaccer Inc., as advertised. With a strong academic background in Biological Sciences from the prestigious Indian Institute of Technology, Madras, coupled with hands-on experience in machine learning, data science, and research internships, I am confident in my ability to contribute effectively to your product management team.

During my tenure as an ML Engineer Intern at FN MathLogic Consulting Services, I developed a Conversational Question Answering System using Large Language Models (LLMs), achieving a 60% ROUGE SCORE on DialogPT. Additionally, my experience at Street Style Store involved enhancing user experience through conversation classification, attaining a remarkable 96.4% accuracy in SVM model classification. These experiences have honed my skills in data analysis, machine learning, and deployment, which align perfectly with the requirements of the Product Analyst role at Innovaccer.

Furthermore, my research endeavors, such as the Machine Learning for Milk Foam Analysis conducted at IIT Varanasi, demonstrate my ability to tackle complex problems and deliver innovative solutions. My project involvement in evaluating ML models for Chest X-ray Diseases at IIT Madras underscores my commitment to ongoing learning and application of cutting-edge technologies.

I am particularly drawn to Innovaccer's commitment to innovation and its mission to revolutionize healthcare technology. I am excited about the opportunity to leverage my skills and contribute to the development of data-driven strategies that optimize product operations and drive impactful decision-making.

Thank you for considering my application. I am eager to further discuss how my background, skills, and enthusiasm align with the needs of Innovaccer Inc.

Warm regards,
Harsh Sagar
