Hiring Manager
Willis Towers Watson
Thane, Maharashtra, India

Dear Hiring Manager,

I am writing to express my interest in the Business Analyst position at Willis Towers Watson, as advertised. With a solid background in data analysis, machine learning, and a comprehensive understanding of business processes, I am confident in my ability to contribute effectively to your Risk Technology team.

During my tenure as an ML Engineer Intern at FN MathLogic Consulting Services, I honed my skills in developing conversational question answering systems using large language models (LLMs). I successfully achieved a 60% ROUGE SCORE on Microsoft DialoGPT LLM, showcasing my ability to tackle complex challenges. Additionally, my experience in document parsing for question answering using LLMs equipped me with the skills necessary to understand and effectively communicate requirements within an Agile framework, a crucial aspect of the Business Analyst role at Willis Towers Watson.

Furthermore, my research experiences, including my ML research internship at IIT Varanasi, have provided me with a strong foundation in data analysis and problem-solving. I have worked on projects ranging from machine learning for milk foam analysis to evaluating ML models for chest X-ray diseases. These experiences have sharpened my ability to collaborate with cross-functional teams and deliver impactful solutions.

I am particularly drawn to the opportunity to work within Willis Towers Watson's Risk Technology team, which operates with an Agile delivery model and emphasizes thought leadership and expertise in designing industry-standard risk analysis tools. I am eager to leverage my technical skills and passion for innovation to contribute to the team's success.

Enclosed is my resume, which provides additional details about my qualifications and experiences. I am excited about the possibility of joining Willis Towers Watson and would welcome the opportunity to discuss how my background, skills, and enthusiasm align with the needs of your team.

Thank you for considering my application. I look forward to the possibility of discussing this exciting opportunity with you.

Warm regards,
Harsh Sagar
