Hiring Manager
EY
Mumbai,
India

Dear Hiring Manager,

I am writing to express my interest in the Analyst - Business Consulting Risk - FS - CNS - Risk - Internal Audit position at EY, Mumbai, as advertised on your careers portal. With a strong academic background in Dual Degree in Biological Sciences from the Indian Institute of Technology Madras and diverse hands-on experience in Machine Learning and Data Science, I am excited about the opportunity to contribute to your esteemed organization.

Throughout my academic and professional journey, I have developed a robust skill set encompassing data analysis, machine learning modeling, and project management. My tenure as an ML Engineer Intern at FN MathLogic Consulting Services provided me with invaluable experience in developing Conversational Question Answering Systems using Large Language Models (LLMs). I led projects involving model finetuning, transfer learning, and backend-fronted integration, which significantly enhanced my proficiency in natural language processing and reinforcement learning techniques.

Additionally, my experience as an ML Intern at Street Style Store and Data Science Intern at Supratech Lab equipped me with a deep understanding of conversation classification, deployment on cloud infrastructure, and feature engineering for machine learning models. These experiences have not only honed my technical expertise but also instilled in me a strong problem-solving mindset and a passion for leveraging data-driven solutions to address complex business challenges.

I am particularly drawn to the opportunity at EY because of your commitment to driving long-term value for clients through innovative problem-solving and client-centric approach. I am eager to bring my unique blend of technical expertise, analytical skills, and passion for innovation to your team and contribute to your mission of building a better working world.

Thank you for considering my application. I am excited about the possibility of contributing to the success of your team and am looking forward to the opportunity to discuss how my skills and experiences align with the needs of your organization.

Warm regards,
Harsh Sagar
