Hiring Manager  
Oracle  
India

Dear Hiring Manager,

I am writing to express my interest in the Software Developer 1 position at Oracle Corporation, as advertised. With a strong educational background in Biological Sciences from the esteemed Indian Institute of Technology Madras and hands-on experience in software development, I am enthusiastic about the opportunity to contribute to your esteemed organization.

Throughout my academic journey, I have gained comprehensive knowledge in data analysis, statistics, and programming languages. My proficiency in programming languages such as C, SQL, Python, and experience with tools like Angular and React, align well with the requirements of the role.

During my tenure as an ML Engineer Intern at FN MathLogic Consulting Services, I played a key role in developing a Conversational Question Answering System using Large Language Models (LLMs). By leveraging transfer learning techniques and implementing backend solutions with Node.js and FastAPI, I contributed to enhancing chat memory retention and response accuracy. My experience in deploying Docker containers on AWS infrastructure and managing CI/CD pipelines further demonstrates my ability to deliver innovative solutions efficiently.

I am particularly drawn to the opportunity at Oracle Corporation due to its reputation as a global leader in cloud solutions and commitment to fostering innovation. I am excited about the prospect of collaborating with talented teams to develop robust software solutions that address real-world challenges.

Thank you for considering my application. I am eager to bring my skills, passion for technology, and dedication to excellence to the Software Developer 1 position at Oracle Corporation. I look forward to the possibility of contributing to your team and driving impactful initiatives.

Warm regards,  
Harsh Sagar
