Hiring Manager  
Capgemini  
Adelaide,  
South Australia

Dear Hiring Manager,

I am writing to express my enthusiasm for the Graduate Program 2024 at Capgemini, as advertised. With a strong academic background in computer science and a passion for technology-driven innovation, I am eager to contribute to Capgemini's mission of transforming businesses through cutting-edge solutions.

Throughout my academic journey at IIT Madras, I have gained a solid foundation in software development, data structures, and algorithms, which I believe align well with the requirements of the Graduate Program.

What excites me about the Graduate Program at Capgemini is the opportunity to work on real projects alongside a global workforce of talented individuals. The prospect of being involved in software development, DevOps, or business analysis projects, and contributing to solutions that drive positive change for clients, is truly inspiring.

I am particularly drawn to Capgemini's commitment to flexibility, learning and development, and employee well-being. The emphasis on hybrid working arrangements, access to industry-recognized certifications, and mental health support reflects a culture that values employee growth and happiness.

I am confident that my academic background, technical skills, and alignment with Capgemini's values make me a strong candidate for the Graduate Program. I am eager to bring my enthusiasm, dedication, and fresh perspectives to the team at Capgemini.

Thank you for considering my application. I look forward to the possibility of contributing to Capgemini's success and embarking on a fulfilling journey of learning and growth with your esteemed organization.

Warm regards,  
Harsh Sagar
